

PET EVACUATION KIT

Be prepared for a disaster with a pet evacuation kit. Assemble the kit well in advance of any emergency and store in an easy-to-carry, waterproof container close to an exit.

Food and medicine

- 3-7 days' worth of food*
- Hand-operated can opener for canned food
- Scoop or spoon to dispense food
- Two-week supply of medicine*
- At least 7 days' supply of water*
- Collapsible feeding dish and water bowl

**These items must be rotated and replaced to ensure they don't expire*

First aid kit

- Antibiotic ointment
- Bandage tape and scissors
- Cotton bandage rolls
- Flea and tick prevention
- Isopropyl alcohol/alcohol prep pads
- Latex gloves
- Saline solution
- Towel and washcloth
- Tweezers

Sanitation

- Litter, litter pan, and scoop (shirt box with plastic bag works well for pan)
- Housetraining pads
- Dog poop disposal bags
- Newspaper, paper towels, and trash bags
- Household chlorine bleach or disinfectant

- Liquid dish soap
- Hand sanitizer

Important documents

- Identification papers including proof of ownership and microchip number, if applicable
- Medical records and medication instructions
- Emergency contact list, including veterinarian and pharmacy
- Photo of your pet (preferably with you)
- Maps of the local area and evacuation routes

Travel supplies

- Crate or pet carrier labeled with your contact information
- Extra collar/harness with ID tags and leash
- Flashlight, extra batteries
- Muzzle
- Thick gloves to prevent scratches

Comfort items

- Favorite toys and treats
- Extra blanket or familiar bedding
- Tie-out stakes
