

Midwestern University College of Veterinary Medicine

Standard 8- Faculty

Minor Deficiency:

Faculty numbers and qualifications must be sufficient to deliver the educational program and fulfill the mission of the college. Instruction in the pre-clinical and clinical setting must be delivered by faculty who have education, training, expertise, professional development, or a combination thereof, appropriate for the subject matter.

Standard 9- Curriculum

Minor Deficiency:

The curriculum must provide:

c. Instruction in both the theory and practice of medicine and surgery applicable to a broad range of species. The instruction must include principles and hands-on experiences in physical and laboratory diagnostic methods and interpretation (including diagnostic imaging, diagnostic pathology, and necropsy), disease prevention, biosecurity, therapeutic intervention (including surgery and dentistry), and patient management and care (including intensive care, emergency medicine and isolation procedures) involving clinical diseases of individual animals and populations. Instruction should emphasize problem solving that results in making and applying medical judgments. Instruction in these areas must provide exposure to the wide range of veterinary care options.
